

Laschi's  
Garden Center  
Planting Instructions

1. Dig a hole one and a half times as deep and as wide as the pot.
2. Add soil mixture or a mixture of
  - 1/3 peat moss
  - 1/3 manure (moo doo)
  - 1/3 top soil (moo dirt)
3. Cover bottom of hole with soil mixture.
4. Place tree or shrub in hole (top of root ball should be level with ground).
5. Fill hole with water allow to drain.
6. Back fill with soil mixture.  
For trees and shrubs in burlap balls, place in hole, unwrap and fold back the burlap .  
Wire case does not need to be removed. Remove root ball.

All trees should be staked

Proper watering: big trees, evergreens, shrubs, etc.  
per week

Watering varies with amount of rainfall, avoid drought  
drowned water logged roots.

Amount of fertilization varies with soil conditions
